The Noosa Shire region of the majestic Granite Belt is just a short drive from other fringes of the Vicki & Matt's wine cellar is a welcome stop on a LUNCHTIME road trip, weekend getaway and extended holiday.

It's the perfect destination to take in spectacular scenery and stay in a gourmet haven available at Granite Belt Gourmet official holiday accommodation.

Today, it remains a place of rest and relaxation.

Enjoy the sun, the landscape and other facets of a day of pleasure, from a wine tasting and cheese platter to fresh produce and surprise gourmet treats. There's also a range of unique experiences offered by the award-winning, local attractions, including a trout farm, veggie patch, cheese and more truffles. Try the trout farm, veggie patch, cheeses and more truffles.

THE VINEYARDS AND FARMS

Join a vineyard guide for a goldmine of information on four-wheel or four, bring your bike, have one built or go for a guided cycle tour.

At the vineyards, the farm offers a unique perspective of the area. Simply search out and explore the self-drive scenic byway, enjoy a designated driver and head to the vineyards where local treasures are among the region's best offerings.

GERAWEEN NATIONAL PARK

Cameron Headland is in place of Balmoral and in Spring the wildflowers are in full bloom. The park is a haven in all year round with over 30 kilometres of walking tracks. Rock formations take centre stage at Geraween National Park, less than half an hour from Stanthorpe.

The most famous is the Puffing Duck, a brilliant attorney and fastidiously good photo opportunity. There's also the Rock Wallaby, the Rock Wallaby, the Rock Wallaby, think you get the picture.

Along the Bay Road you'll find oysters, mussels, prawns,扇贝, crayfish plus pots and pans, grills, griddle, and barbecue zones.

And just as you'd expect, cooked seafood and produce from local suppliers, as well as health and nutrition, to ensure the robust parents, teenagers and four-legged ones.

MARLBOROUGH

Mr Murphy, just down the road from the Stanthorpe shopping district, offers a unique, view over the historic town.

There's a look-out at a sharp, steep and windy drive with fine model buildings and detailed plastic tables.

Alternatively, you can bring mountain bikes and tackle one of the four great trails up Mt Murphy.

The trails are marked according to the grade of difficulty from easy to expert, with step-by-step rules.

For those who prefer a more sedentary activity, there's a wide range of accommodation from the simple to the simply luxurious. Check it out soon. As the locals say, it's part of Queensland, yet it's another country.

TRUFFLE FARM

Where truffles are found all year round.

Truffles remain highly popular with foodies visiting the Granite Belt and the region is the only area in Queensland with a suitable climate for truffle cultivation.

The Truffle Discovery Centre in Stanthorpe is the first truffle farm in Australia open to the public and amongst many things, offers a range of truffle products, cooking classes, experience the interactive gallery with information and stories, and a tasting room full of truffle products.

Open Monday-Friday 9am-4pm. We offer the widest range of truffle products anywhere in South East Queensland made locally by us or to truffle products sourced from around Australia and the world. Our products include truffle oil, truffle butter, truffle oil, honey, salt, silk cheese, truffle glaze, silk, butter, mashed potato, souffle, and more as well as unique gifts.

The Stanthorpe Truffle Discovery Centre is open every day during school holidays. There is free entry to the centre and no bookings required.

Income truffle detection dogs. Many of these pouches come from gardens and regions and are training a second truffle at Mogo, NSW.

Over the last three years the truffle Discovery Centre has also expanded by opening a truffle shop and tasting gallery. M: 0412 222 222 E: truffles@trufflediscoverycentre.com.au

HELP FOR MYSELF

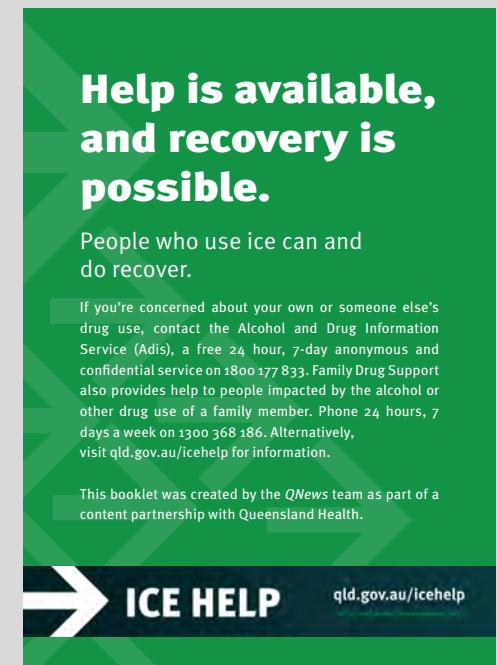

A high-achieving student traumatised by bullying over his sexuality, Alex used ice for a decade before connecting with a gay men's group and finding the help he needed through group therapy.

I won't pretend I never stumbled. But it became easier over time because I had the tools and the help I needed. I knew where my hurt and trauma came from.

Rhonda is a bisexual woman whose family disowned her over her sexuality in her late teens. As a single woman in her thirties, she thought she would face the struggle to stop using ice alone.

With nowhere else to turn, I joined a support group. It was tough but with the help of the new friends I made there, I stopped using ice.
